

*I*ntroducing Sera Fina Cellars, Amador County's newest winery. Our heritage of making well balanced, food friendly wines originated in a small village in Italy in 1883, where wine was part of my family's daily life. This tradition continues today at Sera Fina Cellars, where we specialize in hand crafting small lots of wine from some of Amador County's finest vineyards. Whether you enjoy these first releases in the winery's tasting room or at your own dinner table, we invite you to... **Relax, You're At Sera Fina.**
